Bra Cup

Material: Polyester, nylon knitting fabric, high elasticity foam, natural latex

Techniques: Made of superior high-density foam and knitting fabric, the bra cup has stable quality, not easily deformed, fade or shrink.
Most of the bra cups are foam bonded with knitting fabric, and there are also bra cups with foam and knitting fabric overlocked together, and some with breathable holes.
Overlocking design prolongs its service life. Breathable bra cups are suitable for summer.

Style: Bra cups are varied in shapes, such as triangle cup, round cup, half-round cup, ellipse cup, cut-corner cup, sling cup, overall cup, bra pad, molded cup, which is suitable for different cloths, shape the bra perfectly and feel comfortable.

Feature: The bra cup is used on finished bra. Suitable bra cup can make made-up bra more effective in supporting bra and shaping a better style. It is widely used in swimsuit, corset, Yoga wear, etc. Yoga wear with the bra cup can make you feel relax during exercise.
