150D/3	167	60	7±0.2	3150	4%	5%	18200

Feature

High Temperature Setting

No loose or retwisted after high temperature setting, so the high tenacity sewing thread can be sewed smoothly with high sewing efficiency. Tight and uniform, neat and even thread stitches.

Knot-free

Beautiful shape, knot-free, and silicone oil is added during winding, so the high tenacity sewing thread can be sewed smoothly. It's abrasion resistant and lint-free, non-broken, tight and firm, not easy to loosen.

Application

High tenacity sewing thread is cost-effective and suitable for mattress quilting. Non-breakage in high-speed sewing, strong and durable, high tenacity, high productivity, excellent sew ability.
