

Printed Stretch Satin Chiffon

Material	Polyester + spandex	Width	150CM	Weight	100GSM
Usage	Women's tops, summer dresses, skirts...		Techinc	Dyeing + printing	
Feature	<p>It's made polyester twisted and spandex, with simulated silk effect and satin weave, it's lightweight, smooth and glossy. The addition of spandex provides a soft and comfortable hand feel.</p> <p>It has excellent drape, a strong textured appearance, good breathability, colorfastness, and is easy to care for.</p> <p>After finishing, the fabric undergoes printing, resulting in vibrant colors, rich hues, and strong layering. The garment made of this satin chiffon is both charming and elegant.</p> <p>This fabric offers a high cost-performance ratio and is particularly suitable for spring and summer women's clothing.</p> <p>It is popular in the African, Middle Eastern, Southeast Asian, and South American markets.</p>
