

## Double-layer Fuzzy Socks

Material: Outer layer: Micro fleece, acrylic, chenille and spandex, etc., inner layer: thick and soft lamb fleece

Pattern: Solid color, yarn-dyed, jacquard..., the color and pattern can be customized.

Size: Available in various sizes for children and adult. Mainly in medium-length socks, or can be customized.

Feature:

1. The socks are skin-friendly, fluffy, soft and thick, super warm, cold resistance, wear-resistant and durable, breathable and sweat-wicking.
2. Socks welt has high elasticity, comfortable to wear and not fall off or loose. Flat stitched sock toe, no constricting feeling. The anti-break design of the sock heel makes the socks stronger and durable for longer service life.
3. Socks have silicon grips on the bottom, preventing sliding down on the smooth floor and offering more protection during indoor activities.
4. Various styles and rich colors, socks with holiday elements such as Christmas and Halloween.

Usage: Ideal socks for winter warmth and can be worn at home as floor socks or in snow boots for extra warmth.
