BAG MATERIALS

ABOUT US MH

MH office building,business center for 500 sales and assistants.

Ningbo MH was established in 1999, specialized in garment accessories and fabrics. After 25 years of development, MH has set up strong business relationship with more than 120 countries, sales amount up to $743 million in 2024. MH is one of the top suppliers for garment accessories and fabrics in China. Main products include sewing thread, embroidery thread, zipper, ribbon & tape, embroidery lace, button, interlining and other garment accessories & fabrics, like TC poplin, taffeta, pongee, T/R, mini-matt, oxford, and other fabrics.

Now MH owns nine factories located in 3 industry zones for thread, lace and ribbon products, being the footstone for MH's dream "kingdom of tailor's material". The total workshop is over 300,000 m^2, with 3000+ workers.

MH has 500 professional sales in team work, and 40 oversea branches with 75 local staff in Africa, Latin America, Eastern Europe, Asia, etc. Each sales team provides value-added services for customers in specified market, so customers could enjoy professional, quick and effective door-to-door service.

MH continuously innovates products and services, optimizes internal management and creates value for customers. MH has got honors as "Zhejiang Top 100 Service Industry" , "Zhejiang Made Leading Export Enterprise", "Ningbo High Technology Enterprise", "National Embroidery Fabric Product Development Base". Also "MH", "TWO BIRDS" trademark are well-known brands loved by customers and consumers.

MH sincerely appreciates the trust of customers, would adhere to the principle of customer first, and supplies customers with full-category, reasonable price, on-time delivery, suitable-quality garment accessories and fabrics products.

Taffeta Lining Fabric

Polyester taffeta lining is light and cost-effective, especially for plain weave taffeta. The jacquard plain weave taffeta looks more beautiful, also has better strength and higher wear resistance than twill taffeta. The taffeta lining fabric can be coated with silver with waterproof treatment, and can also have customized jacquard logo or embossed logo.

Oxford Fabric

Oxford Fabric, made of coarse nylon/polyester yarns, has rough texture, high load-bearing capacity, and is not easy to wear. Bags made of oxford fabric has a long service life.
The fabric surface can have plain weave, jacquard texture, printing or waterproofing treatment, and its base can be processed with PVC calendaring or PU coating, which would enhance its fastness and thickness.

Warp Knitted Mesh Fabric

Warp knitted mesh fabric's structure is loose, has extensibility and elasticity, and good air permeability, and the mesh holes' distribution is uniform and symmetrical, with various shapes, like square, round, diamond-shaped, hexagonal, column bar, wavy, etc. They are fashionable, beautiful, muted in color, not easy to fade. The 3D mesh pattern follows fashion trends and keeps a classic style. The mesh fabric can be matched with suitcases' styles.

PP/PE Lining Board

Size, thickness and specification can be customized.
MH PP/PE lining board has the advantages of high heat resistance and cold resistance, excellent rigidity and tenacity, and strength.
Application: suitable for trolley cases, luggage, handbags, hats, baby carriages, furniture, and others.

Reflective Tape

Ordinary Reflective Tape
Ordinary bright reflective tape, high bright reflective tape, high bright silver reflective tape.
Material: polyester, T/C fabric

Reflective Film
High bright, high bright silver, decorative film.
Material: PU, TPU

Warning Reflective Tape
Webbing warning reflective tape, Oxford warning reflective tape, flame retardant warning reflective tape.
Material: polyester, cotton, aramid.

Test Standard:
European standard ENISO 20471
European standard industrial washing ENISO 15797
European standard flame retardant performance EN14116
American standard Flame Retardant UL
Using way: sewing, hot ironing
Usage: fire rescue, construction, maritime, transportation, clothing, trademarks, pendants.

Reflective Tape

6802-1006

Hook and Loop

Suitable for garment, shoes, caps, leather goods, furniture, medical and body-building apparatus and instruments, appliances for labour protection, etc.

Varieties:

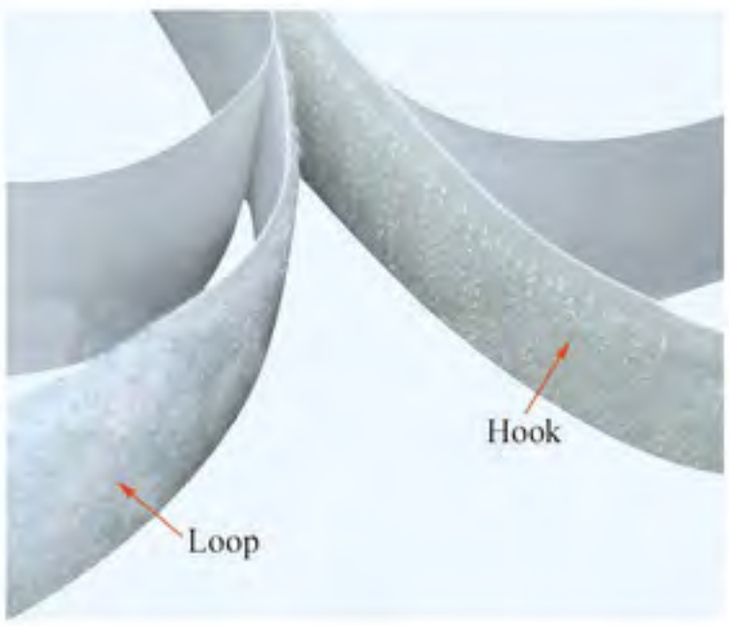
Grade A	Grade B+	Grade B	Grade C
100% Nylon	60%Nylon, 40%Polyester	30%Nylon, 70%Polyester	100% Polyester

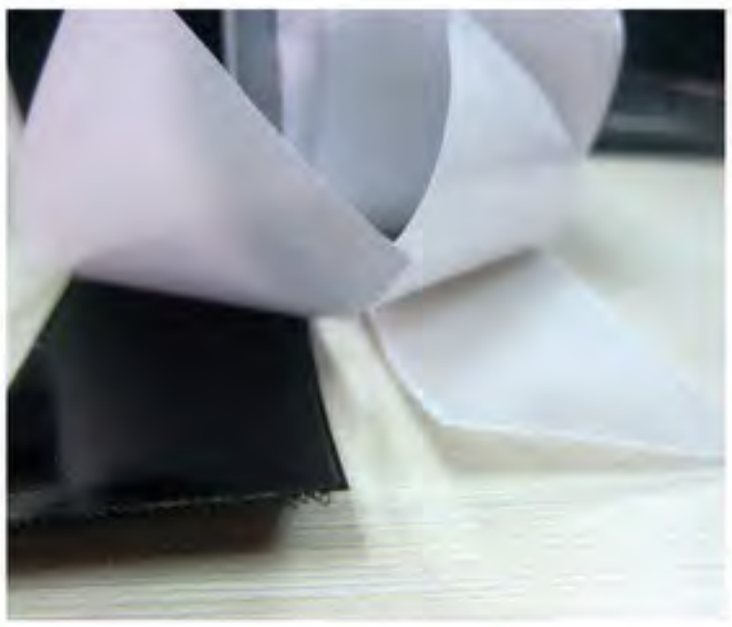
Standard Hook & Standard Loop

Packing Style

Adhesive Hook and Loop(背胶粘扣带)

Feature: it can resist heat and coldness. The tape is suitable for using on stationary and plastic works within the temperature -15 °C ~ 70 °C





Injection Hook / Moulded Hook(射出钩)

Feature: stronger tensile force, soft, durable.
Application: suitable for several kinds of fur surface.

2# Style Moulded Hook, Glue Backed
6131-9313
Width: 10mm

3# Style Moulded Hook, Glue Backed
6131-9314
Width: 25mm

4# Style Moulded Hook
6131-9303
Width: 30mm

Hook and Loop

Back to Back Hook and Loop(背靠背粘扣带)

1. Hook + Loop
2. Hook + Fabric
3. Injection hook + Fabric
4. Width: 10mm, 15mm, 20mm. 25mm.

Colors: red, yellow, blue, green, white and black.

Flame-retardant Hook and Loop(阻燃粘扣带)

Feature: flame retardant, coated with glue, washable and passed the frame-retardant test FAR.25.853 and FMVSS-320.

Application: industrial products, vehicles, etc.

Anti-Static Hook and Loop(防静电粘扣带)

Feature: anti-static Velcro tape uses 100% nylon material through special process, is environment friendly and non-toxic. It can be sewed, stuck or melt on most material. It can resist heat and coldness, can be washed, dry cleaning, steam sterilization and resistance to acid and alkali.

Application: widely used in medical items, clothes, textiles, toys, furniture, sports, etc.

Shaped Plastic Boning

Material: PVC, PE, EVA or other plastic materials.
Color: can be customized.
Application: suitable for handbags, luggage, leather goods, school bags, shoes and hats, sofa edging, car seat, and others.

Packing

Usage

Elastic Band

Width: 20mm-100mm
Material: Polyester, nylon & latex, spandex yarns
Color: White, colored, and other customized colors
Certificate: OEKO-TEX

Color Card

Bag Tape

Material: polyester, cotton, nylon, polypropylene

Width:10mm~200mm

Usage: shoulder bag, business bag, mountaineering bag, shopping bag, binding belt, protective belt.

Bag Tape

PP Bag Tape

20NT-5005, Width: 20mm, Weight: 6.7g/m, 900D
Available in 50 colors

Available in 50 colors

Bag Tape

Polyester Bag Tape

Material: polyester
Production process: weaving
Width: 15mm~100mm
Product features: wear-resisting, high grade of color fastness, smooth, environment-friendly.
Usage: luggage, outdoor goods, apparel
Packing: 50m/roll.

20NT-9200, Width: 38mm, Weight: 31g/m

20NT-9201, Width: 32mm, Weight: 27.5g/m

20NT-9202, Width: 25mm, Weight: 13.5g/m

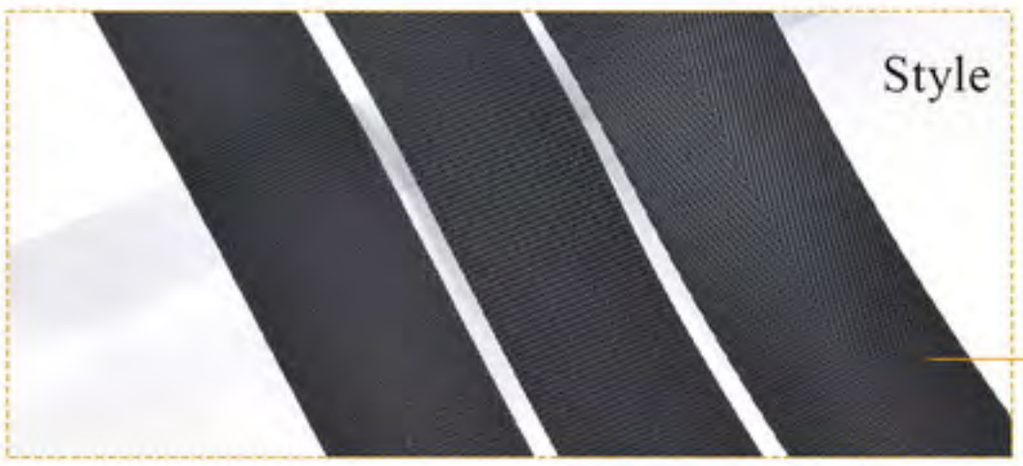
Faux Nylon Luggage Webbing Tape

Width: 10mm-100mm

Customized colors are acceptable.

Feature: Made of colored yarns, has better washing/rubbing color fastness.

Using high F yarns, the webbing tape is flat, smooth, not easy to wrinkle.



Color Card

Webbing Tape

Jacquard Webbing Tape

Width: 1.5cm-10cm
Material: High F polyester yarn
Technique: Jacquard
Feature: The product is tightly woven and lint free.
Customized patterns are available.

Printed Webbing Tape

Width: 2.5cm-10cm
Material: High F polyester Yarn
Technique: Screen printing, thermal transfer printing
Feature: Rich patterns, low MOQ.

Plastic Accessories for Bags

Plastic Buckle

Plastic buckles are widely used for clothes, shoes, hats, bags, camera bags, mobile phone bags, outdoor products and even pet products.

Buckles have side release buckle, snap hook, tri glide buckle, stair buckle, D-shape buckle, square buckle, cord lock, etc.

Raw materials include POM, PP, PA, PC, ABS, PVC, with various properties to meet user needs.

Side Release Buckle

A side release buckle consists of a male plug and a female socket. Fasten webbing on the female socket and attach the other end of the webbing on male plug to adjust straps' length. It's widely applied to waist belt and shoulder belt.

MH plastic buckles are advanced, having lower weight without sacrificing their strength. There are V-shape buckles, Y shape buckles, dual adjustable side release buckle, rotary buckles.

Customized logos are available by printing, electroplating.

You can choose different sizes.

Tri Glide Buckle

Tri glide buckles are used on backpack and cross body bag to adjust the length of straps. To increase slip resistance, middle bar is designed with skidproof grains. Top and bottom bars can be widened to print logos.

You can choose different sizes.

D-shape Buckle

D-shape buckle is named after its shape. It is widely used together with hooks for shoulder straps, or hanging trinkets. The curve is smooth enough to grip with your index finger or thumb. That's why some bags have a D-shape buckle in case the bag is too heavy. Thus, we can grip the D-shape buckle to support it.

Square Buckle

Square buckle is also named after its shape, just like D-shape buckle. It is mainly used to connect shoulder straps and bags, and easy to dismantle without unstitching. Some square buckles can also be used to adjust straps' length.

Plastic Snap Hook

Plastic snap hooks have various shapes, and standard snap hook has a flat ring to fix webbing tape. It's mostly used for the belts of waist bags or leisure bags, cooperating with D-shape rings stitched on the two sides of a bag. Smaller sizes are often used in the interior of bags to hang keychains.

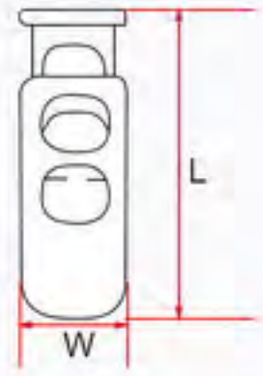
Cord Lock

Cord lock utilizes springs' malleability to stuck cords firmly. There is one hole or two holes in various shapes. It's suitable for cotton cords, plastic cords, elastic cords, etc. Customized logos are also available. There are various new cord locks.

6662-0172



Only three steps, Easy to install, Easy to simplify, A few steps easy to aplly

Step 1
Prepare a cord stopper.

Step 2
Press its two sides.

Step 3
Thread the end of drawstring through the grommet.

Commonly Used Materials and Application

Material	Urban Name	Flammability	Feature	Application
Polyformaldehyde	Rigid as steel	Flammability	1. Excellent rigidity 2. Excellent creep resistance 3. High chemical resistance 4. Excellent cold and heat resistance 5. High dimensional stability "	Hook, side release buckle, adjustable buckle, etc.
Polypropylene	Flexible plastics	Flammability	1. High formability, high yield strength 2. Excellent impact resistance 3. High flexural fatigue resistance	Hook, side release buckle, adjustable buckle, daily necessities etc.
Acrylonitrile-butadiene-styrene	High impact polystyrene	Flammability	1. High compressive strength and high impact resistance 2. Excellent heat, acid and alkali resistance 3. High creep resistance"	Suitable for electroplating buckles. A preferred non-metallic material for impact-proof products.
Polyethylene	HDPE	Flammability	1. High creep resistance and stress crack resistance 2. Flexible and non-toxic 3. High solvent and chemical resistance	Water bottle, container, toy, etc.
Polycarbonate	Bullet-proof transparent plastics	Self-extinguishing	1. High impact resistance and tensile resistance 2. Finished goods has high precision and dimensional stability . 3. Excellent resistance to vigabatrin, oxidant, salt, oil, etc. 4. Excellent insulation"	First choice for transparent buckles.
polyamide	Nylon	Self-extinguishing	1. High resilience and compressive strength 2. High tensile resistance 3. Excellent wear-resistant, corrosion resistant 4. Excellent cold and heat resistance	Side release buckle, handgrip, mechanical accessories, etc.
polyvinyl chloride	Flexible plastics	Self-extinguishing	1. High chemical resistance 2. Excellent heat resistance and ageing resistance 3. Adjustable softness"	Shoulder pad, handgrip, luggage base, etc.

Metal Accessories

Hook Clasp

Hook clasp is suitable for bag, suitcase, outdoor goods and sofa built-in buttons. The product is solid and durable. With simple design, it can be matched with any bag in a variety of styles.
